Don Alonzo is M. F. Dwyer's candidate. He is a four-year-old bay coit, by Long Taw, out of Round Dance. He cannot lay much claim to greatness on his performances last year, and he was under suspicion of having an extremely small heart. His trip West for the American Derby, knocked him all askew, and he did not recover from the effects of that trip until late in the Fail. This season, he is a greatly improved horse, and does his work in taking fashion. His best trial up to date was a mile and a quarter in 2.19.1-4. He could have gone much faster, however. Don Alonzo has a trick of running out on the turns and in a big field of hoses he is not likely to be at his best, as he is long-legged and is much distressed when buffeted about.

Banquet, another candidate of Mr. Dwyer's, is not a likely starter. Banquet is an aged gelding, by Rayon d'Or, out of Ella T. The old gelding has been going well in his work, but Don Alonzo has thus far held him safelint their work. Banquet has had several tries at the handicap, but has falled to reach the post a winner. He needs several hard races before he is fit, and these he will not get before May 15.

Alax, next on the list, is Col. Ruppert's candidate. He is a four-year-old brown colt by imp. Dandle Dinmist, out of Moonlight. A lax's best work has been a mile and a quarter in 2.113-4, but he finished all out and a very tired horse. He will have to be considerably improved before May 15 to have any chance at first money. An unwise selection has been made in the person of Garrison as the jockey. As Ajax wants to be ridden in front and Garrison cannot rid; a horse than way, it will be seen that the horse will not be helped much. Ajax did not begin to get good until late in the Fail of last year, when at Monmouth Park he beat Lamplighter, Sport (Comanche, Bassetlaw and other good ones in easy style.

Sport is Gilpin & Taylor's entry. He is by Winfred, dam Souci, and is a chestinut colt four years old. Sport was alling early in the Spring, and displayed a fearful temper. After a ti

ter in 213 1-2.

Of the other candidates who need special mention there are two who should not be left out of calculations. These are Dr. Rice and Henry of Navarre. The former recied off a mile and a quarter at the Coney Island track a few days ago in 2.10 1-2. He is high class, well bred and in the hands of a clever man.

man.

Henry of Navarre is a three-year-old, and has this Spring worked the Handleap dis ance in 2.08 3-4. Though a three-year-old has never yet won the Handleap, this fellow's work entitles him to be marked

old has never yet won the Handleap, this fellow's work entitles him to be marked "dangerous."

Dr. Rice has a lot of speed, but is under suspicion. He bled in one of his caces when Gideon & Daly owned him, and they sold him last year to Fred Foster. The first race in which Foster started the colt. Dr. Rice won at a mile in the mud at Morris Park, galloping away from a lot of stake horses, and finished pulling up in 1.42. Rice has gone the Handleap distance in 2.11 1.2 this week, and Foster thinks he has a great chance for the money.

Lowlander's best work has been a mile and a quarter in 2.14. Lowlandska has worked at about the same notch. Diablo is credited with a mile and a quarter at Morris Park in 2.13, and Pickpocket's best has been nine furlongs in 2.63. Comanche worked in 2.14 1.2 yesterday. He is a greatly improved horse, and will take a lot of beating. Leonawell has worked in 2.11 3.4. Terrifier has not done well, and Blitzen is as yet an unknown quantity. Herald has been going great guns at Monmouth. Long Heach, on his past record, seems outclassed, but a mile and a furlong in 2.001-2 this Spring is work not to be despised.

despised.

To sum up, the race appears to lie between the four-year-olds, and the writer will not swerve from his original selection of Sir Walter to win, St. Leonards for the place and Sport third.

DICK BURGE'S VICTORY.

Turned a Somersault After Defeat-

ing Nickless. The account received by Richard K. Fox to-day of the fight in the Boling-broke Club rooms, London, tast night, between Dick Burge and Harry Nickless, for the 140-pound championship and 53,000, is a great deal different from that

cabled over last night. According to Mr. Fox's representastart. Burge was a 1 to 2 favorite, and played for Nickless's eyes throughout, partially closing the right one early in the contest. Nickless was nearly out in the fifteenth round, only being saved by the fifteenth round, only being savel by the call of time. He revived wonderfully, and although nearly blind put up a game fight, catching Burge a clip on the jaw in the twenty-seventh round that came pretty near putting Burge in Queer street.

In the twenty-eighth round, however. Burge knocked Nickless down twice and then put him out.

Burge seldom used his right, and won the fight principally with left hand jabs. Burge at the finish turned a somersault in the ring.

TO CONVOY THE VIGILANT

Goulds' Big Yacht, the Atalanta, to Escort the Crack Sloop.

The Goulds are hurrying the work of Vigilant, and expect to start the crack sloop on her trip across the ocean in three weeks. Tobin bronze plates are to be put in place of the steel ones fore and aft, and a "scag" is being fitted to the straight keel to make her more

are atraight keel to make her more active in the stays.

The Atalanta will act as convoy, to the sloop, and when new sails are put on the Vigilant at Cowers she will be ready to meet all comers.

When the Vigilant meets the Valkyrie, Britannia, Sananita and Calluna abroad lank Haft expects the champion single sticker to show the way home to them

people, have for some days been living virtually in the shadow of death in the condemned four-story tenement-house at 106 Greenwich street.

is still more alarming. Owing to the bulging of the front wall the ends of the floor beams on the upper floors have been pulled partly out of their resting places, and the warped walls and cracked ceilings show how the building has been racked by the settling of the foundations and swaying of the walls.

This state of affairs might have continued nidefinitely if Shoemaker Henry Merten, who has a shop in the basement, had not been served with a dispossess warrart yesterday.

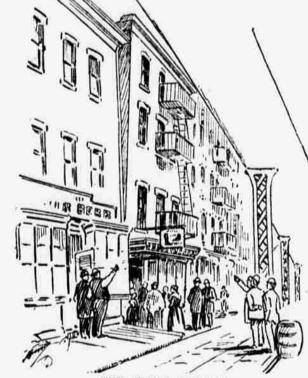

Merten's ire was aroused and he sent word to the Department of Buildings that they would see something interesting if they went to 106 Greenwich street.

An inspector went around late yes-terday afternoon. It took but a glance to tell him that many lives were in danger.

He hurried around to the Church street station and asked that the police notify the tecanis that the house might come tumbling about their ears at any mo-

condemned four-story tenement-house at 106 Greenwich street.

Strange to say, although they fully realized their danger, they have continued to live in a death-trap and even and took a look around. He laughed now, when a tardy warning has been when an "Evening World" reporter

\$4,950,000 IN GOLD GONE.

Boston Adds \$500,000 to New York's Shipments for the Week. The week just ending has witnessed The week just ending has witnessed the heaviest export of gold that has occurred for several months past, the aggregate amount of the yellow metal carried out of the port since Monday being \$1,550,660. From Boston \$50,080 was shipped to-day, making a total export of \$5,56,080 from both ports for the week.

Of the gold sent from here, the Sub-Treasure furnished \$4,560,060, and the balance was furnished by the banks.

The shipments excite but little comment from bankers and merchants, principally because the balance of trade is largely in our favor, and on account of the large supply of money held in the sebaceous or oily matter as muchs of the tores. the heaviest export of gold that has oc- alone,

ED and REVISED to date, to use this cartoon as an argument to show what they can accomplish, be-cause it won't help their cause one bit with the delegates to the Constitutional Convention.

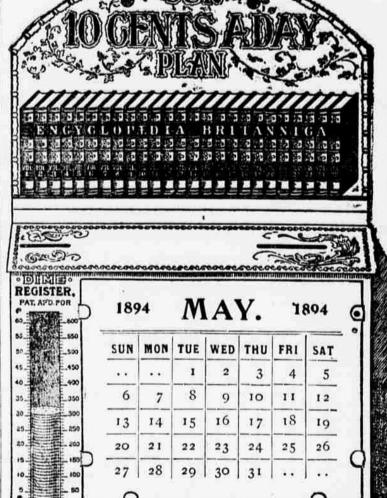

A Universal Need. The need of a good spring medicine is The need of a good spring medicine is universal. No matter what a man's occupation may be, no matter in what locality he resides, or whether he spends his time indoors or out in the open air, he cannot avoid a feeling of depression and languor when the warmer weather comes. And when we stop to consider the matter this condition appears to be perfectly natural. During the winter the food consists largely of meats and of rich, fatty substances which are needed to supply the additional animal heat required. More clothing is worn than in summer, and there is much less perspiration. The consequence is that the body becomes clogged up to a certain extent, the blood either loaded with impurities or else impoverished and thin. This is why we suffer with "That Tired Feeling" in the spring.

But the most important point is to know how to remedy this condition, and, happily, this question has long since been solved. The increasing males of Hood's Sarsaparilla, the thousands of testimonials from people who have taken it, the marveilous cures effected by this great "King of Medicines" are sufficient evidence that Hood's Sarsaparilla exactly meets the needs of the human system at this season. The trouble, as we have seen, shows itself in the blood, and Hood's Sarsaparilla purifies, vitalizes and enriches the blood. This is why "Hood's Cures." This is why Hood's Sarsaparilla has become the favorite and the standard remedy for all the disagreeable feelings that come with the comin't of the spring. universal. No matter what a man's oc
